

Activity logbook during one year fellowship in sport medicine and knee surgery

Dr. Ashraf Mohamed Attia Elazab,
05-01-1980
Egyptian Orthopedic Surgeon
International fellow March 2015- Jan 2016
Corresponding professor: Yong Seuk Lee

Department of orthopedic surgery
(Knee & Sports medicine)
Seoul National University College of Medicine,
Bundang Hospital,
166 Gumi-ro, Bundang-gu, Seongnam-si, Gyeonggi-do
463-707. South Korea

This is to certify that Dr. Elazab completed a one year clinical fellowship from March 2015 till Jan. 2016 in Seoul National University Bundang Hospital – joints center.

During this period he was admitted to the knee section and he was involved in whole department activity including operations, outpatient clinic, daily rounding, scientific meeting, training activities, and research projects.

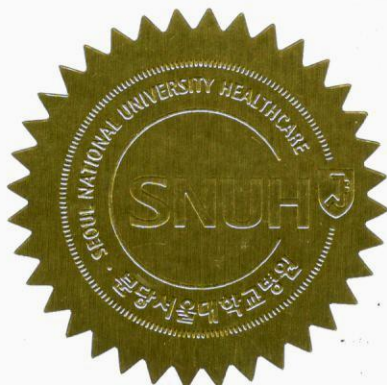

During the fellowship period he trained on different arthroscopic procedures including; ligaments reconstruction (ACL, PCL, PLCS, and MPFL), menisectomy, meniscus repair, meniscal allograft transplantation (MAT), mosaicplasty, osteochondral grafting, microfractures, notchoplasty, management of patellar instability and other knee arthroscopic procedures.

He also trained on joint replacement procedures including; primary total knee arthroplasty (TKA), revision TKA post infection, aseptic loosening, global instability and other indications of revision arthroplasty. He trained also on uni-compartmental knee arthroplasty.

Moreover, he trained on different techniques of around knee osteotomies including open wedge and closed wedge in both proximal tibia and distal femur. He also shared in the management of different cases of trauma especially around knee trauma.

From our electronic records we can describe the numbers and kind of operations that Dr. Elazab shared in during the fellowship period.

Operation activity logbook for Dr. Ashraf Elazab from March 2015- Jan.2016

Kind of operation	Total number
Arthroplasty	220
Arthroscopy	170
Osteotomy	115
Trauma	55
